BRYAN SAYS THE FUTURE OF SILVER AS AN ISSUE IS UNCERTAIN

go, Jan, 8.-In his speech tonight at the Jackson day banquet of ago Eryan league, Mr. Bryan said:

er the money question will figure prominently in future cam-depend upon circumstances which no one can measure with What is desired is a sufficient quantity of money to keep demand for money. If an unexpected and unpromised inoutput of gold restores the level of prices and protects the ealth from the evils of an appreciating dollar, those imetallism will rejoice more heartily than the vocated the gold standard at a time when gold was was becoming dearer."

"Those who are within the party lines have a right to a voice in making of the platform and are entitled to make such change in the organization making of the platform and are entitled to make such change in the organization of the party as they please, but honesty and good faith requires that any desired change shall be openly proposed and fairly presented. Party organizations are framed for party government and derive their just powers from the consent of the governed. Party platforms are of no value unless they be affect the purpose of and the policy desired by a majority of those who belong to the party.

Deception Not to be Tolerated.

Those who are really devoted to Democratic principles will neither practice deception themselves nor permit others to practice deception in writing a platform or in securing the control of the party machinery. I hope that in this and in other states the party may be able to avoid those fierce factional contentions which sometimes distract attention from party principles and waste in personal fights the energy that should be directed against the common enemy.

"No one can foresee the conditions which our party must meet, but we can fuce the future with the determination to apply Democratic principles to every emergency and to make the party a faithful exponent of the views of those who believe in equal rights to all and special privileges to none."

As to Money and Monopolies.

Mr. Bryan then discussed the money question, as quoted above. He continued:

"Monopolies will ultimately become so hurtful that the Republicans will no longer be able to defend them. Even today their defense is more secret than open.

"A colonial policy when put into full operation will prove so repugnant to American principles that it must final tyle repudiated by the American people. BOODLE READY IN VAIN

Senatorial Candidates Prepared to Welcome Legislators.

Boise, Ida., Jan. 8.—Despite the unanimous action of the fusion caucus in nominating Fred T. Dubois for senator, the Hanna-Shoup contingent has not given up. Their cry is "Anything to beat Dubois," and rumors are thick that money will be spent freely to accomplish this end.

There is more tangible evidence than rumor, too. Senator Ballantine (Populist) of Blaine was approached today and offered money if he would allow his name to come up as a senatorial candidate.

Senator Clark of Nez Perce county (Populist) was approached personal ly and by letter many times before he came here. Senator Frank Moore (Democrat) from Latah county was also offered all

kinds of inducements to enter the senatorial race. These and numerous other instances could be cited, and in every case the

entire support of the Republican members is promised.

The fact is, there are a number of high-minded Republicans in the legislature, whose parts could be given, who will vote for Dubois the instant any Republican member votes for a Democrat.

Dubois managers say it can be set down as absolutely certain that if state commerce commission today for any excuse any member who attended the caucus refuses to vote for handed down an opinion of vital im-Dubois next Tuesday, he has been bought. They are confident, however, that portance to Salt Lake. It holds that

every member who voted for him in caucus will vote for him on Tuesday.

All fusion members, however, are firm as the rock of Gibraltar, and it against cities in the mountain region looks now as if Dubois would receive the full strength of the fusion vote on the first ballot next Tuesday. Brennan of Bear Lake announces openly he will support Dubois and abide with those in the original caucus. This the same principles apply to Salt makes Dubois' vote 41.

It is reliably reported that Pugmire and Howell of Bear Lake, Mormons, will come to Dubois' support and make it unanimous, as far as the roads must not make cheaper rates fusion forces are concerned.

Senator Houlahan said late tonight that there is absolutely no defection points and the coast than they make in the ranks of the fusionists, and that on Tuesday next Mr. Dubols will be to Denver, or between Denver and the

NUMBER 216

Brilliant Illumination for Livestock Convention.

GAY DECORATIONS FOR BUSINESS BLOCKS

Plans for Entertaining Delegates Take Definite Shape.

At last the persistent and well-directed work of the citizens' committee that is preparing for the coming of the National Livestock convention is having its effect, and the enthusiasm of the great event is infecting every branch of business and every section of the city and state. Yesterday a committee composed of James Devine and O. P. Hatch called upon a number of the leading merchants of the city to induce them if possible to co-operate with the committee in the decoration of the city during the convention. They found the business men ready and willing to do all in their power along this line. The idea of the committee is to have all stores and show windows dressed especially for this occasion, and judging from the spirit manifested there will be many beautiful and unique exhibitions among the business houses.

It was also decided by the committee to have special street illuminations for convention week. Jesse M. Smith called upon the Utah Light & Power company in this matter and found that corporation ready to do its tuil share toward making a good showing for the city. Forty extra arc lights will be put in on the streets in the district bounded by South Temple. State, Third South and West Temple. In addition to these there will be some very fine designs made of electric lights for the principal street crossings. The Utah Light & Power company agreed to furnish the light free if the committee would do the work of putting the lamps in place, and this is considered a very liberal offer.

Council Appropriations.

Council Appropriations.

The city council came to the front ery nicely also last evening with an appropriation of \$500 for the purpose of lighting and decorating the streets dur-ing the convention. In addition to this Street Superintendent Condie receive Street Superintendent Condie received instructions to put on an extra force of men for the purpose of keeping the streets perfectly clean in the business district during the entire week.

With the money appropriated by the city council and through the liberality of the electric light company it is certain that some of the finest illuminations ever seen in the city will be those of next week. Among the special deformant of the contractions of the city will be those of next week.

Entertainment for Delegates.
